- Notes
- Desktop app (in the future will have mobiel version)

Settings- will have option to update app notofication, alerts etc

Profile- by pressing on the user name, user will be able to update (and verify) his personal details

FTUE- will have a video/tutorial. by pressing the ? button, users will be able to review it again

Chat- will be connected to Discord, by pressing it will open a new integrated chat section

Call for action- need to think about it, ideally it will take the user to start playing one of his vavorite games

Rough draft- need to dive into more details on the UX+Design (icons, features, etc)
